

Ice Storms

Although much of the state is unaccustomed to snow and ice, temperatures can fall below freezing even in South Texas. Wet snow and ice snap tree branches and cause electric lines to sag.

To make our families safe and comfortable during a winter power outage:

- Report any outages.
- Turn off electrical appliances that were operating at the time the power went off, including your heating system. Leave one light on so you'll know when service has been restored.
- Keep warm by closing off rooms you don't need and use only safe sources of heat, like a wood stove. Do not burn charcoal indoors—it releases carbon monoxide, which is deadly. If you operate lanterns or fuel-fired cook stoves or heaters, make sure that you have adequate ventilation to keep harmful fumes from accumulating.
- Don't drive unless absolutely necessary until road conditions improve. If you must drive, go slowly and pump your brakes to stop.
- Be extra careful not to slip on treacherous ice.

Ice storms are more than a nuisance—they can be deadly!
